

Here is the motion that was passed:

"That the House agree that suicide is more than a personal tragedy, but is also a serious public health issue and public policy priority; and further that the House urge the government to work cooperatively with the provinces, territories, representative organizations from First Nations, Inuit, and Métis people, and other stakeholders to establish and fund a National Suicide Prevention Strategy, which among other measures would promote a comprehensive and evidence-driven approach to deal with this terrible loss of life."

Below is the link for video from the House of Commons yesterday.
